

Texas Commission on Environmental Quality

Exemption §106.393 Checklist (Previously Standard Exemption 27)

Plastic/Rubber Handling Facilities

The following checklist has been developed so the Texas Commission on Environmental Quality (TCEQ) can confirm you meet exemption requirements. The questions are derived from §106, Subchapter A, and the exemption List. Please read all questions and check YES or NO (equivalent to True or False), or give specific information as applicable to your facility. If you do not meet all conditions of a specific exemption, you will not be allowed to operate the facility under exemption and you must apply for a construction permit as required under §116.111 prior to construction.

Part	YES	NO	Description
	_____	_____	Equipment at this facility is used exclusively for conveying and storing plastic and/or rubber solid materials
	_____	_____	Visible emissions occur
	_____	_____	Powders and Resins are handled at this facility
a)	_____	_____	Equipment used for conveying powders and resins to storage silos is vented to a fabric filter baghouse
	_____	_____	Table 11 "Fabric Filters" is attached for above device
	_____	_____	The fabric filter has a maximum filtering velocity of 7.0 feet/minute and is equipped with an air cleaning system
	_____	_____	The fabric filter has a maximum filtering velocity of 4.0 feet/minute and is equipped with a mechanical cleaning system
b)	_____	_____	Transfer of powders and resins is accomplished in an enclosed system
